Issues to fix (8)

Medium Render-blocking scripts and stylesheets

0 blocking script(s) and 20 stylesheet(s) in the page head.

How to fix: Add `defer` to scripts that don't need to run early, inline small critical CSS, and load the rest asynchronously.

Low First large image is lazy-loaded

The first image in the page is marked loading="lazy".

How to fix: Remove loading="lazy" from the first visible image and consider `fetchpriority="high"`.

Low No security.txt file

/.well-known/security.txt was not found (or has no Contact: line).

How to fix: Publish /.well-known/security.txt with at least a `Contact:` and an `Expires:` line.

Low No Permissions-Policy

No Permissions-Policy header.

How to fix: Send e.g. `Permissions-Policy: camera=(), microphone=(), geolocation=(), payment=(), usb=()`, allowing only what you need.

Low Title is very short

“MDN Web Docs” is 12 characters.

How to fix: Expand it to roughly 30–60 characters: main topic first, brand last.

Low Missing Open Graph tags

Missing: og:title, og:description, og:image.

How to fix: Add og:title, og:description, og:image (1200×630) and og:url.

Low No structured data

No JSON-LD or microdata found.

How to fix: Add JSON-LD for your organisation/website, plus the type that fits each page (Article, Product, LocalBusiness...). Check it with Google’s Rich Results Test.

Info Not ready for the HSTS preload list

For preload the header still needs: includeSubDomains, preload.

How to fix: Serve `max-age=31536000; includeSubDomains; preload` on the root domain, redirect http→https on the same host first, then submit at hstspreload.org.

Passed checks (34)

Valid SSL certificate · HTTP redirects to HTTPS · HSTS enabled · Content-Security-Policy restricts scripts · Clickjacking protection · MIME sniffing disabled · Referrer-Policy set · No mixed content · Fast server response · Brotli compression · HTTP/2 supported · Lean HTML · Static files are cacheable · Page loads successfully · Page is indexable · Good meta description · One clear H1 · Canonical URL set · Mobile viewport set · robots.txt allows crawling · XML sitemap found · Missing pages return 404 · Page language declared · All images have alt attributes · Form fields are labelled · Links and buttons have names · Logical heading structure · Standards-mode HTML5 document · SPF record present · DMARC policy enforced · CAA records restrict certificate issuance · Reachable over IPv6 · No broken links found · Page titles are unique
