Issues to fix (16)

Medium No XML sitemap found

Checked robots.txt, /sitemap.xml, /sitemap_index.xml and /wp-sitemap.xml.

How to fix: Generate an XML sitemap, reference it in robots.txt and submit it in Google Search Console and Bing Webmaster Tools.

Medium Broken links

1 broken internal and 0 broken external link(s) found.

How to fix: Update or remove links that return 404/410 or server errors; redirect deleted pages to their closest replacement.

Medium Pages without meta descriptions

12 of 23 other indexable page(s) have no meta description.

How to fix: Add a 120–160 character description to your important pages.

Low First large image is lazy-loaded

The first image in the page is marked loading="lazy".

How to fix: Remove loading="lazy" from the first visible image and consider `fetchpriority="high"`.

Low Images not in modern formats

10 of 10 images are JPEG/PNG/GIF without a WebP/AVIF alternative.

How to fix: Serve WebP/AVIF (with <picture> fallbacks if you need them) or let an image CDN negotiate the format.

Low Web fonts may block text rendering

protocol-mozilla.eafbcba9bb2a.css: 2 @font-face rule(s) without font-display.

How to fix: Add `font-display: swap` to @font-face rules, or `&display=swap` to Google Fonts URLs. Self-hosting fonts saves extra connections too.

Low Obsolete HTML elements

Found: .

How to fix: Replace them with CSS.

Low CSP allows unsafe inline scripts

script-src: 'self' 'unsafe-eval' 'unsafe-inline' *.google-analytics.com *.googletagmanager.com google-analytics.com googletagmanager.com js.stripe.com s.ytimng.com tagmanager.google.com
www.mozilla.org www.youtube

How to fix: Replace 'unsafe-inline' with per-request nonces or script hashes, ideally with 'strict-dynamic'.

Low No Permissions-Policy

No Permissions-Policy header.

How to fix: Send e.g. `Permissions-Policy: camera=(), microphone=(), geolocation=(), payment=(), usb=()`, allowing only what you need.

Low No structured data

No JSON-LD or microdata found.

How to fix: Add JSON-LD for your organisation/website, plus the type that fits each page (Article, Product, LocalBusiness...). Check it with Google's Rich Results Test.

Low robots.txt doesn't list a sitemap

No "Sitemap:" line in robots.txt.

How to fix: Add `Sitemap: https://yourdomain/sitemap.xml` (absolute URL).

Low Internal links point at redirects

1 internal link target(s) redirect.

How to fix: Update internal links to point straight at the final URL.

Low Redirect chains

2 URL(s) go through 2 or more redirects.

How to fix: Point redirects (and links) directly at the final destination in one hop.

Low Pages without an H1

3 page(s) have no H1 heading.

How to fix: Give each page one descriptive H1.

Info Not ready for the HSTS preload list

For preload the header still needs: includeSubDomains, preload.

How to fix: Serve `max-age=31536000; includeSubDomains; preload` on the root domain, redirect http→https on the same host first, then submit at hstspreload.org.

Info Pages set to noindex

1 crawled page(s) are set to noindex.

How to fix: Check the list and remove noindex from any page you want in search results.

Passed checks (38)

Valid SSL certificate · HTTP redirects to HTTPS · HSTS enabled · Clickjacking protection · MIME sniffing disabled · Referrer-Policy set · No mixed content · Fast server response · Brotli compression · HTTP/2 supported · Lean HTML · Few render-blocking resources · Off-screen images are lazy-loaded · Static files are cacheable · Page loads successfully · Page is indexable · Good page title · Good meta description · One clear H1 · Canonical URL set · Mobile viewport set · Open Graph tags present · Valid hreflang annotations · robots.txt allows crawling · Missing pages return 404 · One preferred hostname · Page language declared · All images have alt attributes · Form fields are labelled · Links and buttons have names · Logical heading structure · Standards-mode HTML5 document · security.txt published · SPF record present · DMARC policy enforced · CAA records restrict certificate issuance · Reachable over IPv6 · Page titles are unique
